Total rescued	44

The forces under the direction of Engineer Moore, Superintendent Robinson, and former Superintendent Morris completed the work of exploring the entries and rooms of the Klondike district of the Rolling Mill Mine at 10 o'clock this morning, and there is every reason to believe that the total loss of life is now known.

The work of rescue never for a moment lagged from the instant that Foremen Rodgers and Blanch and Fire-Bosses Whitney, Griffith, Foster, and Retallick felt the shock of the explosion until every nook and corner of the devious ways of the Klondike workings had been searched by experienced miners. That hundreds of miners working in other portions of the mine are to-day alive is due to the heroic efforts of the executive staff of the Mill Mine

is not completed until no time.

The funeral services brought impressive throngs of men, children. The coffins filled the church and extended steps into the street. Women wept and wailed, and all stood long rows of absolute their heads bowed, and gleaming a light reflecting of Time. The coffins two were taken out to and interred in the crypts belonging to St. Stephen's Church.

Formale's large wagons several funeral parties. They everywhere have been converted into requisition every kind use at the funerals to-day.

The third batch of bodies from the mine since the explosion came up at 4 o'clock this morning along the cable line. They had been a few hours before by a W. H. Morris, of Boswell Crocker, of Potts place, Geason's assistant, who had been short on hearing of the disaster.

The men fought their way after dark the full length of the mine where the explosion occurred, to where the bodies were in a condition of the bodies was a great deal worse than either lists referred to, with the exception of the poor fellow who was blown off and the right hand badly mutilated.

A lot of scorched piles were found in this vicinity and the exploring party say they are from the smell of but that a few of the men in the room, while present when they found them sick from the stench, had All the bodies were removed and it is feared that several will not be identified.

Mr. Morris says he is confident that all the bodies have been recovered from the Klondike district with the exception of a few that may be in some of the old places in order to get away from
